WASHINGTON NEWS

Senate Committee on Foreign Affairs Has Referred Cuban Resolutions to Sub-committee.

EXCITEMENT IN THE HOUSE

General Grosvener Fears Open Rupture Between President and Republican Congressmen—Important Advice Expected from Madrid.

Washington, March 30.—The senate committee on foreign relations failed to reach an agreement today on the Cuban resolutions, but referred the whole matter to a sub-committee. Members of the committee who saw the president today assured the other members that the matter would be settled one way or another within one week, or may be within 48 hours. The committee considered it would be unwise in view of pending negotiations to precipitate matters. The senate passed a resolution, on motion of Chairman Davis, of the foreign relations committee, allowing them to sit during the sessions of the senate.

Request for Consular Correspondence.
Mr. Frye reported from the foreign relations committee a resolution requesting the president to transmit to the senate all the consular correspondence relating to the conduct of war in Cuba, condition of the people, etc. Mr. Frye asked that the resolution lie on the table until tomorrow.

President Asks for 60 Hours' Time.
It is stated among the senators that the president has asked the committee of congress not to act for 60 hours.

Excitement in the House.
Mr. Bailey, Democratic leader, presented in the house, as a matter of privilege, a resolution to recognize the independence of Cuba. A perfect whirlwind of applause overcame the house gallery. Mr. Boutelle made a point of order against it. Mr. Bailey, in speaking to the point of order, declared he had no purpose to raise disorder in the house. He believed he had a right to make it. The greatest confusion and excitement prevailed. Mr. Bailey said the house had a right to decide this question and to accept the responsibility. He cited a precedent in the Fifty-third congress, when on a similar question the present speaker of the house and the Republicans all voted against a ruling of Speaker Crisp, holding that a Hawaiian resolution offered by Mr. Boutelle, while in order, must go to the committee and was not privileged for immediate consideration. The Democrats and the galleries repeatedly applauded.

Mr. Boutelle replied, detailing the circumstances of the precedent, but contending that the ruling was erroneous. Mr. Hull, chairman of the military affairs committee, who is at the head of the radical Republicans, arose to rally his followers against the resolution at this time. He said he was willing to go as far as anyone in aiding the struggling patriots of Cuba, but wanted everything done in an orderly way.

Mr. Hopkins, who presided at the meeting of the radical Republicans last evening, said the resolution should go to a committee. He was not willing to be carried off his feet to overturn the rules of the house.

Speaker Reed ruled the question of independence did not come in violation of privilege and would not, he thought, at any time, except in times of great excitement, and sustained the point of order. Mr. Bailey appealed from the ruling. Speaker Reed, after the appeal, stated he had no doubt but the ends sought to be arrived at in the resolution would be secured in an honorable and satisfactory manner. Mr. Bailey said he had no doubt the remark was intended to stiffen the backbones of the Republican members. On laying the appeal on the table, a standing vote showed 158 to 137. No Republican was shown voting in the negative. On a roll call the appeal was laid on the table by 179 yeas to 139 nays.

Two Republicans, Mr. Acheson and Mr. Robbins, of Pennsylvania, voted with Democrats against the speaker's ruling.

Cuban Resolution Introduced.
Representative Adamson, Georgia, introduced a resolution recognizing the republic of Cuba and authorizing the president to accredit a minister to that government.

Representative Mahany, New York, introduced a joint resolution recognizing the Cuban Republic as a free and independent state, and welcoming her to "the sisterhood of Republics in the western world."

Representative Todd, Michigan, introduced a resolution declaring that a state of war exists between the United States and Spain.

The house resumed consideration of the naval bill.

Important Advice from Madrid Expected.
President McKinley told the Michigan congressional delegation today that he did not want congress to act precipitately as he was expecting hourly important advice from Minister Woodford upon which much would depend.

Fear of Rupture Between President and Republicans in Congress.
General Grosvener, of Ohio, has expressed a willingness to call a caucus of the Republican members to decide upon action with relation to the Cuban situation, but most of the Republicans do not believe the caucus should be held yet, as they are of the opinion it would necessarily lead to an open rupture between the Republicans in congress and the president.

Favorable Report on Naval Bill.
The sub-committee on naval affairs has unanimously recommended a favorable report on the naval personnel bill.

Maine Relief Act Approved.
The act for the relief of sufferers by the Maine disaster has been approved by the president.
